VENKAT SAI ANIL KUMAR
AI Engineer | 4 Years Experience
Email: venkatsai@email.com | Phone: +91 9966933336 | Hyderabad, India

SUMMARY

AI/ML Engineer with 4 years of experience building and deploying machine learning models. Strong in Python, NLP, and cloud-based ML workflows. Experience with LLMs and RAG pipelines. Looking for senior AI engineer roles to deepen expertise in agentic AI and production ML systems.

EXPERIENCE

AI Engineer - Minfy Technologies (2022 - Present)
- Built RAG pipelines using LangChain, ChromaDB, and Amazon Bedrock for enterprise document Q&A systems
- Developed and deployed ML models on Amazon SageMaker for customer churn prediction (AUC 0.89) and lead scoring
- Implemented prompt engineering strategies for Gemini and Claude models, improving response accuracy by 35%
- Built automated document ingestion pipeline processing 10K+ PDFs/day with chunking, embedding generation, and vector storage
- Created LLM evaluation framework measuring hallucination rates, relevance scores, and grounding quality
- Worked with cross-functional teams to translate business requirements into ML solutions

ML Engineer - Wipro (2021 - 2022)
- Trained and deployed classification models using scikit-learn and TensorFlow for insurance claim fraud detection
- Built feature engineering pipelines for structured and unstructured data
- Implemented model versioning using MLflow and experiment tracking
- Deployed models using Docker containers on AWS ECS
- Collaborated with data engineering team on ETL pipelines (AWS Glue, Redshift)

Data Science Intern - Infosys (2020 - 2021)
- Built sentiment analysis models using BERT and spaCy
- Created dashboards using Python, Pandas, and Matplotlib
- Assisted senior data scientists with model evaluation

EDUCATION

M.Tech Artificial Intelligence - IIIT Hyderabad (2018 - 2020)
- Thesis: Attention mechanisms for low-resource language translation
- CGPA: 8.7/10

B.Tech Computer Science - JNTU Hyderabad (2014 - 2018)
- CGPA: 7.9/10

TECHNICAL SKILLS

Languages: Python (expert), SQL, JavaScript (basic)
ML/DL: scikit-learn, TensorFlow, PyTorch, HuggingFace Transformers
LLM/GenAI: LangChain, Amazon Bedrock, OpenAI API, ChromaDB, Pinecone

Cloud: AWS (SageMaker, S3, Lambda, Bedrock, Redshift, IAM, ECS)
MLOps: MLflow, Docker, basic Kubernetes exposure, SageMaker Pipelines
Tools: Git, Jupyter, FastAPI, Streamlit, Grafana
Data: Pandas, NumPy, Spark (basic), PostgreSQL

CERTIFICATIONS

- AWS Certified Machine Learning Specialty (2023)
- AWS Solutions Architect Associate (2022)
- DeepLearning.AI LLM Specialization (2024)

PROJECTS

- Enterprise Knowledge Bot: RAG system serving 500+ internal users, using Bedrock Claude + Pinecone, 92% answer accuracy
- Automated Resume Screener: ML pipeline scoring 1000+ resumes/day against JD requirements using embeddings and semantic similarity
- Real-time Anomaly Detection: Streaming anomaly detection on IoT sensor data using SageMaker and Kinesis
